

Only Jesus Can Heal This Hurting World

This world will not get better on its own
More problems each day and were losing sight of hope
We need to admit, we can't fix what's going wrong
But there's someone who can do what we've needed all along

Only Jesus can heal this hurting world
Only Jesus can heal this hurting world
No one can love like he does,
Heart by heart and one by one
Only Jesus can heal this hurting world

In every corner of the planet is the same
We can't get along because we don't know how to change
No plan formed by man can set us free inside
But the prince of peace can reach our wounded hearts and minds

Only Jesus can heal this hurting world
Only Jesus can heal this hurting world
No one can love like he does,
Heart by heart and one by one
Only Jesus can heal this hurting world

There's a bridge between us
His heart will forgive us
The pain that conquers darkness
The only one that can save us

Only Jesus can heal this hurting world
Only Jesus can heal this hurting world
No one can love like he does,

Heart by heart and one by one

Only Jesus can heal this hurting world

Every man, woman, boy, and girl

Only Jesus can heal this hurting world
